- **APPROVED BY HEALTH CANADA NN.02W6**

Description :

LOONA HOCL is an all-natural first aid antiseptic spray for wound and skin care. LOONA HOCL is endogenous, that is to say: our body produces it with white blood cells to kill germs and bacteria and accelerates the healing of your animal. Powerful, non-toxic alternative to antibiotics and steroids. LOONA HOCL improves the natural defenses of weakened skin.

How to use it:

Spray on the skin and/or coat as needed, 1 to 4 times a day. Use daily to irrigate, cleanse, soothe and moisturize wounds.

Made for :

- Ideal for irritated and itchy skin areas; it cleans, irrigates, moisturizes and helps remove debris from wounds. Safe for use on all animals around the mouth, nose, ears and eyes.
- Species: Cats, dogs, horses, dairy cattle, beef cattle, pigs, sheep, goats, chickens, turkeys, rabbits, other poultry (quail, pheasants, partridges)

Ingredients :

Hypochlorous acid (0.017 %).

For external use only, not for injection use. For animal use only, not for human use.

Physical properties:

Physical state	Clear liquid - Colourless
pH	7.0
Odour	Slight chlorine / Mostly odourless
Storage stability	2 years at 20 et 24 °C
APPROVED BY HEALTH CANADA	NN.02W6
